H-75W Halogen Fiber Optic Illuminator

Description:

This H-75W fiber optic illuminator is an cost-effective halogen fibre optic illuminator perfect for interior applications such as fiber optic star ceilings, cabinet lighting, bar lighting etc.

Remark: This 75W halogen fiber optic illuminator can be equipped with a DMX512 control interface, which is named H-75WD.

Details

• Non-Weatherproof
• Solid aluminium body
• Supplied with 8 colour wheel or twinkle wheel
• With a DMX512 interface(optional)
• UV and IR filter

Specifications

Input Voltage:	210 ~ 240 VAC 50/60Hz
Rated Power:	100W
Construction:	Black and silver aluminium
Effect Wheel:	8 Colour Wheel: (white, purple, yellow, blue, green, orange, sky-blue and grass green)
	Twinkle Wheel: (mesh wheel with white and fragments of blue)
Motor Speed:	1 RPM
Motor Switch:	240V power plug to allow switching via wall plate or home automation systems
	'Colour Select' button on front of unit
Lamp:	Osram 100W Photo-Optic Halogen lamp
Fibre Capacity:	500 x 0.75mm fibres maximum
Environment:	Ambient operating temperature of +5º to +40º C
	Indoor use only
Filters:	Combined IR and UV
Dimensions:	240mm L x 200mm W x 125mm H
Weight:	3 kg

H-100W Halogen Fiber Optic Illuminator

Description:

This H-100 fiber optic illuminator is an cost-effective halogen fibre optic illuminator perfect for interior applications such as fiber optic star ceilings, cabinet lighting, bar lighting etc.

Remark: This 100W halogen fiber optic illuminator can be equipped with a DMX512 control interface, which is named H-100WD.

Details

• Non-Weatherproof
• Solid aluminium body
• Supplied with 8 colour wheel or twinkle wheel
• With a DMX512 interface(optional)
• UV and IR filter

Specifications

Input Voltage:	210 ~ 240 VAC 50/60Hz
Rated Power:	130W
Construction:	Black and silver aluminium
Effect Wheel:	8 Colour Wheel: (white, purple, yellow, blue, green, orange, sky-blue and grass green)
	Twinkle Wheel: (mesh wheel with white and fragments of blue)
Motor Speed:	1 RPM
Motor Switch:	240V power plug to allow switching via wall plate or home automation systems
	'Colour Select' button on front of unit
Lamp:	Osram 100W Photo-Optic Halogen lamp
Fibre Capacity:	500 x 0.75mm fibres maximum
Environment:	Ambient operating temperature of +5º to +40º C
	Indoor use only
Filters:	Combined IR and UV
Dimensions:	240mm L x 200mm W x 125mm H
Weight:	3 kg

Typical Applications

• Fiber Optic Star Ceilings
• Fiber Optic Cabinet lighting
• Fiber Optic Decorative lighting

• Landscape lighting
• Bar lighting
